Abstract

This article focuses on rendering succinctly what has happened in the World Cup of Alpine Skiing since its beginning in 1966 until now. From all points of view, the setting up of the World Cup initiated a revolution in alpine skiing.

New concepts regarding the preparation, obtaining and maintaining the sports fitness, the specialization on events and set of events have emerged. Moreover, it is said that the World Cup rewards those who have constancy in their evolution and show results. Also briefly presented are the events for which the crystal bowls are awarded at the end of the year.

Keywords: World Cup of Alpine skiing, victories, perspectives, events.
